Pred. No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.

A. Experimental source: liver
C. Comment: This protein is the major protein component in plasma. It functions ein has 35 conserved cysteine residues.
C. Superfamily: serum albumin; serum albumin repeat homology
C. Keywords: liver; plasma
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        serum albumin precursor - cat
C;Species: Felis silvestris catus (domestic cat)
C;Bate: 19-0ct-1995 #sequence_revision 03-Nov-1995 #text_change 20-Aug-1999
C;Accession: JG4660; S5760

Sequence Sequence S

Pred. No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.
